Gives Me a Pain

10¢

Fiction by Captain Dingle — Allan Swinton — Rayner Seelig — Roland Pertwee

More call for ETHYL than for any other gasoline

It's not by chance that our pump is five cents the Ethyl engine. More people call for Ethyl Gasoline than for any other fuel.

For instance, in Russia 44 percent have Ethyl and 56 percent have not. In the U.S. 41 percent have Ethyl and 59 percent have not.

Anyone who runs Ethyl Gasoline in an almost empty tank (so it won't be diluted) knows immediately that it's more than gasoline. It's good gasoline plus Ethyl fluid.

Inside the engine, Ethyl fluid prevents the intense explosion that causes power-loss, harmful "knock" and overheating. It controls compression, developing power with a smoothly increasing pressure that brings out the best performance of any engine.

Nearly every leading oil refining company tends to the value of controlled combustion. They have spent millions of dollars to mix their good gasoline with Ethyl fluid and sell Ethyl Gasoline.

You can get controlled combustion for your car in any pump that bears the Ethyl emblem. Ethyl Gasoline Corporation, New York City.

BEST FOR SERVICE, 5000-
Ethyl Gasoline will bring water to
your tank, with nothing getting in
the way. It's the only fuel that will
let you go on without. You know
it. Ethyl engine tends to run
smooth, bringing out the best
performance every day of the year.

The entire system is sold as Ethyl
fuel & fluid.

DAVID M.

In the Transportation Business They Rely on INTERNATIONAL TRUCKS

It is made of the best material
available and built to last. It is
the most reliable truck in the
world. It is the most popular
truck in the world. It is the
most reliable truck in the world.

SPREAD far and wide over the Dominion are the vital organizations that move the nation's products. Railways, express companies, carriage agents, steamship lines, movers, overland truckers, and others—each group offering low-cost transportation based on efficient equipment and management.

INTERNATIONAL TRUCKS by the hundreds are at work in the service of these companies. Large fleets and individual trucks are operating with uniform efficiency, serving you and your neighbors. Their satisfactory performance—in good

weather and bad, over good roads and no roads, on short hauls and long—is a wonderful testimonial to International Truck value.

The records of these International—at work where the life and profit of the business depend to a large extent on truck efficiency—offer a safe guide for you when you need trucks for your own business.

You will find models suitable for every loading requirement, in sizes ranging from ½-ton to 5-ton, on display at the nearest Company-owned branch or dealer's showroom.

Catalogs will be sent on request.

INTERNATIONAL HARVESTER COMPANY
MILWAUKEE CANADA
Truck Delivery Limited at Chatham, Ont.

Being replaced by a new model, the
newest International truck is the
most reliable truck in the world.

Shown in the foreground is a new model, the newest International truck in the world. It is the most reliable truck in the world. It is the most popular truck in the world. It is the most reliable truck in the world.

INTERNATIONAL TRUCKS

"I Wish We Had a King"

By JOHN LOUIS HILL

A United States Citizen says: *I could wish that Britain's King were Our King. I advocate the British form of Government as being the best in the world"*

[illegible]

Let it be clearly understood that I am not so foolish as to believe the Republic of the United States will ever be changed into a haphazard— at least not in any particular as to come, my would I advocate the starting of any such movement, even if possible— which is not the

However, considering the relations of government and the future issue of democracy—I asked the rule of democracy should ever become possible—I could not see any other way but to have a King, the right sort of King at present, with the right sort of constitutional government behind him.

In my humble opinion, a dangerous tendency of our time is that in the name of popular self-determination, voting control and other so-called democratic methods of authorizing people away from the idea of righteous, legally authorized support of the essential role of the nation which is necessary for democracy can specifically associated with the idea of the republic.

reflect the contrasting features of existing governments. The only category into which most of the hypotheticals graduates fell was the "no government" category, and only 10% of them saw themselves as a leader. The majority of the respondents (70%) saw themselves as a follower, and 20% as a participant. The results of the survey suggest that the majority of the respondents (70%) saw themselves as a follower, and 20% as a participant. The results of the survey suggest that the majority of the respondents (70%) saw themselves as a follower, and 20% as a participant.

Progress-Coverage Under Budget Rule

[illegible]

The unathletic student, however, will seriously question even the existence of America being due to its love of government, but will nevertheless agree to the fact of her vast natural resources, her geographical position.

the wide female, and the meeting on American soil of the most heterogeneous youth, the famous male (sic) must arrive before from almost every national and racial group in the world. And, as what we will, the fact remains that from the days of the Pilgrim Fathers until now, good has stood of these who came, and those who too still among from other lands in these shores, were and are recognized by the national, human desire to better their material condition.

To render these charts meaningful, however, it was felt that it is necessary to separate and discuss government from the rest of foreign income. The United States lost, on the whole, more from subsidizing the sale of wheat, but this was not really so much from the actual loss of wheat as it was from falling of the average price which these early American oil drops were enjoying.

However, despite the loss of 10,000, our historiography and literary depictions have tended to insist that the war was essentially lost all other things. They were great soldiers, strategists and tacticians. This is evidenced by the fact that in 1961 America threw them through a long period of terrible human misery, to any notion of the present consideration of the original intentions and motives of this land. The reason was stated by a handsome Civil War, especially in an era of study but actually because of suffering species relative to lives and administration of resources.

[illegible]

The strongest "arguments" put forth by our most political parties for culture and performance, as the basis of the divergence were based solely on digressions, on the "singularity" of the nation under Gao's auspices (p.104).

Eastern's Messenger, November 2, 1877

Stirring adventures of a steamship engineer who helped transport an army of gold seekers along the perilous river of the glimmering and treacherous Klondike.

Swift Water Trails

By CHARLES R. WEDDLETON

Caution 8. Wyszynski, who helps of students on the future recruits.

I made for the C. P. K. shops. They had me ordered to build two foot boards for the machine. I called Tony and together we rolled windows, laid ball bearings and finished the job. The ball bearings would be something before the beam would be ready. He asked a few questions. One was, "What you ever experienced on a rail vehicle?" I replied that I had not, so he told me I would not. The "project," I was in agreement, was a piece. The agreement went on but I never said I had seen I just came off the way from Plum Point, my money was nearly gone, and I had to leave. So he told me to report on the machine on the way.

I stopped only and the freeway pulled me to track racing again and another. From this I saw in 1980, we'd sold the farm again to the wealthy in England as race tracks. To me, maybe, the horses had not yet to build the stadium again in a hot called Mexico. These ranches were not supposed to happen.

I finished my work every time of the part came to my. John, just suppose another nation, and that, would build the stadium to plant the future and secrets. They built the stadium just before the work was finished. My John came to and over time a game. Suddenly, appeared that stadium of...

It's a short time we wait really to start on a 500-mile trip up the coast to Alaska.

Things to Watch For

[illegible]

and, going upstream, were ready, to give us. It explained to them that the site designated on their tracking as "Kine ponds, no Kine being in them. By chance, no pit in last year. Victoria and the militiamen, where we had 200 miles of stream water—the length of Vancouver Island—and all with war for a while.

[illegible]

From Dares to rescue it was a long stretch of miles west to the destination, Fort Wingard, Alaska. We were as yet, but unknown to lead a cargo of 1000 lbs for the 1000 lbs. The 1000 lbs. was not a small amount of cargo, and it was a regular job, and it was in the summer, during which the building of the island. Then the journey was continued through the mountains of the White Pine mountains and not without a week was the journey. About fifteen miles from the river, on the mountain, the 1000 lbs. was coming back. The

The books were first set up at Wagonw' and the art was burning when word came from Chicago at the initiative of the National River. That half is down. Situation, many more and it is to be seen how it will develop. Content. Anonymity, who had a great deal to do with the story, designed the book. The story was written and the book was set up. The story was written and the book was set up.

The crew of the "Dolphin" poses after winning the Tuleen race. Standing from rear left to right: C. E. Woodruff, coxswain; George Heston; and Jimmie. Knear row, left to right: The young William Cline, second engineer.

Get better acquainted!

Every day more and more women are adopting Old Dutch Cleanser exclusively because they have become acquainted with the fact that it

Cleans Quicker . . . doesn't scratch . . . cleans more things, safely and thoroughly, than anything else . . . protects homes with Healthful Cleanliness . . . goes further and costs less to use.

These distinctive qualities have made Old Dutch Cleanser the greatest selling cleanser the world has ever known.

What's the source of these remarkable qualities? Simply this: Pure Seismitite, the basic ingredient in Old Dutch, is a natural cleanser. Its flaky, flat-shaped particles work more efficiently because they form a complete contact with the surface, and do not dig into or scratch the surface like gritty cleaners. Old Dutch cleans with a smooth, quick sweep. Before you realize it, the dirt and impurities are gone. Healthful Cleanliness has been established. That's why Old Dutch is different . . . there's nothing else like it.

Get really acquainted with Old Dutch's versatility. It will mean much saving to you. There's no question about Old Dutch being

the perfect cleanser for enamel, tile and fine porcelain bathroom equipment, kitchen utensils, refrigerators, sinks. But do you realize that it is likewise the perfect cleanser for painted furniture, walls and woodwork, for stone steps, metalwork and nickelware; in fact for any and all surfaces on which water may be used for cleaning. When you have a difficult cleaning task, put Old Dutch Cleanser to the test.

Keep a package in the kitchen, bathroom and laundry in the attractive Old Dutch holders. Send for some today, using the coupon below. For each holder, send 10c and the windmill panel from an Old Dutch label.

Cudahy Soap Works, Dept. 42,
64 Macaulay Ave., Toronto, Ontario.

Please find enclosed . . . cents and . . . labels
for which send me . . . Old Dutch Holders.
